Project Design Phase
Solution Architecture

Date	10 April 2026
Team ID	
Project Name	SHOPEZ : E-commerce Application
Maximum Marks	4 Marks

Solution Architecture Description:

Shop-Ez adopts a 3-tiered architecture that includes the Presentation Layer, Application Layer, and Data Layer. The purpose of such architecture is to build a scalable, safe, and reliable e-commerce framework.

The MERN stack (MongoDB, Express.js, React, Node.js) guarantees smooth interactions within the front-end and back-end modules of the system.
